## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-7 and 16-19 are, drawn to a transfer case or a gear box, classified in class 475, subclass 311.
  - II. Claims 8-15 are, drawn to a drive train for a vehicle, classified in class 475, subclass 198.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions of Groups I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as recited in claim 8 does not require the particulars of the subcombination as recited in claims 1 and 16, for example, the direct clutch assembly, and a drum and band assembly. The subcombination as recited in claims 1 and 16 has separate utility such as it can be used in a vehicle without "a vehicle transmission" that is recited in the combination of claim 8.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 3681

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ha D. Ho whose telephone number is 571-272-7091.
